

MT 401

- Many useful functions combined in the body of one pair of pliers
- Practical tool for work and everyday use
- Range of uses including shears, pliers, wire cutters, Phillips or slotted screwdriver, saw, double-sided file and bottle opener
- All tools made from robust, black-coated stainless steel
- Every tool is safely locked in position once folded out
- Convenient use due to comfortable polymer grips
- Nylon holster for easy storage on a belt
- Extremely compact, foldable design fits in any pocket

This compact, folding multitool combines many useful functions in the body of one set of pliers. This includes sprung pliers with wire cutter, Phillips and slotted screwdrivers, saw, double-sided file, shears and bottle opener. All the tools are made from robust, black-coated stainless steel. The polymer grips sit comfortably in the hand for easy use. A nylon holster is included in the delivery for easy storage on a belt.
