

TK 300

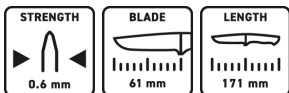

- Sharp, replaceable straight blade with satin finish surface
- Perfect for cutting carpets and opening packaging
- Thumb-rest for safe knife guidance
- Comfortable polymer grip with ergonomic finger moulding and integral loop
- Button lock keeps the blade in the open position
- Belt cutter tool
- Quick blade replacement – no additional tools required
- Belt clip for easy storage
- Optimum storage in a high-quality nylon holster, including blade magazine insert, for carrying either horizontally or vertically
- Belt clip for easy fastening
- 6 blades included with delivery

This effective folding knife offers a sharp, replaceable straight blade and is the perfect tool for cutting carpets and for opening packages. The non-slip thumb-rest helps to guide the knife safely when cutting. The practical polymer handle with ergonomic finger grips allows the user to work in comfort. A button lock keeps the blade in the open position. Two important design features can be found in the lower third of the grip. These are the integral loop and a strap cutter, an essential tool in emergencies. The belt clip makes the knife easy to carry and its compact size means it easily fits in a trouser pocket.
