GEN2

Three-dimensional laser with magnetic clamp and wall bracket

Rev.1216

- **PowerBright®** laser with 3 extremely bright 360 degree laser lines
- Straight forward plumb function using laser crosses
- With the **magnetic clamp and wall bracket** the device can be used as a standalone unit, in a combination as well as in horizontal and vertical position.
- Ideal for mounting horizontally and vertically on **drywall construction profiles**.
- **Automatic Level:** automatic alignment by virtue of a magnetic pendulum system.
- **Tilt mode is an additional feature** that permits gradients to be laid out.
- Optimised for **work close to the ceiling**
- **Out-Of-Level:** Is indicated by optical and acoustic signals when the unit is outside its self-levelling range.
- **RX-Ready:** The integrated hand receiver mode detects the laser lines with the optional laser receiver RX up to a max. of 40 m radius – ideal for all interior and exterior applications.
- **Mains operation** possible using additional mains unit
- **Transport lock:** A pendulum lock protects unit during transport.
